

Mr. Smith. (Sinclair)

I am so glad that you think Sen. John Kerry is not fit to serve as the commander in chief of this great country. What we need is more people like G.W. Bush, Cheney, Rummy, Karl, and the like. How much are you being paid to push your fascist views, lies and make-believe stories? Un-American views, such as yours, do nothing but help the terrorist further their agenda. I think you should all be tried at The Hague for war crimes. I will now boycott all of your stations, sponsors and anyone who is associated with you (...even all of your military contracts...) and anybody you deal with (...the FCC not withstanding...). John Wayne said, "Hell ain't half full."

But I see you guys are taking care of that.
